Fresh From the Wires from AH

New York, September 27 .- Admin George Lewey arrived off New York at dawn and the Olympia is now anchored in American waters in the light o Sandy Hook. The chore butteries to Fort Hancock, manned by manne called from breakisst, let loose seven twenty-one and let go her anchors no

teen guns. The flagship answered wat far from where the cap challenger Shamrock is morred. The admiral was in his own-country again ofter twenty three months sizence. He returned 'great with arduous greatness of things done" and he scarcely seemed to rea-

J. C. Brown, who has been arrested in Tueson on a charge of lorgery, i quite well known in this city. He, with E. W. Deery, the name he lorged to the check, were in Bisbee together a few months since and left in company for Sonora. Since that time nothing has been heard of Deery, but Brown has been in Tucson for some time. Many of Deery's effects were found in his possession when arrested. It is possible that the officials will have a charge of murder against Brown before they get through, as the body found near Nogales is said to resemble the features of Deny. An investigation is being made and may lead up to Brown being charged with Deery's murder.

The Mexican government has granted William C. Greene, of Arizona, over fifty miles in extent of land in the Fronteras mining district, Sonora. In it are gold, silver and copper mines, some old abandoned properties and others not yet opened. Greene's scheme embraces the formation of large grain and cattle ranches, the establishment of two great smelting plants to treat the ores and the construction of a railway to connect the various portions of the grant with

the road from Benson to Gunymas. Greene is planning to form a great industrial colony and is calling upon the Maxican residents of New Mexico. Ar sona and Sonora to take employment on his lands.-Mining Reporter.

a: Italian employed at the smelter would have cost his life had it not been for the quickness of a fellow workman. The Italian was working near the ore

erusher when one of the big betts behanng. Containing 18.18 net acres. Total et area. 38.29 neres, and forming portion of the quarter of section in the was jerked off his feet, and the belt better the control of this mine is recorded in the control of this mine is recorded in the control of the Country Recorded in the country Re slipped off and in falling caught him. He was jerked off his feet, and the belt starting to wind around the shaft drew him upward, when a fellow workman grabbed him and succeeded in pulling him out of the coil that was drawing

warded to him east where he has bee for some time. It is doubtful if he w accept the position, as since his depa ture east he has become interested zinc mining and is said to be doing w at the business and will probably wat to remain there.

stitching.

Not to Early to Think of Them THIS IS TO TELL OF TWO KINDS Soth equally good from every point of view, whether it be that of Style Weliablity of Material, excellence of Workman-

Thip or loweress of Brice. - + 8 1 One is a Cheviot Serge, in navy and black. Jacket has fly front, with two rows of three buttons each; over seam; stitched throughout with silk, sleeves are tight fitting, flaring slightly at the wrist; bottom is scalloped and edged with three rows of stitching, the lining is of taffeta silk. Skirt is tight fitting over hips with three

Price is \$12.00.

straps at placket; panel effect edged with three rows of

The other is of Cheviot Serge also, in navy and black. Jacket is tight fitting and lined with taffeta silk. Skirt is plain, but hangs prettily and that makes it a satisfactory skirt.

Price \$8.00.

The New Dress Goods

FVERYTHING we tell of these days can be truthfully prefixed by "New." Especially so does this apply to Dress Goods.

This concerns Novelty Dress Goods, of which we have about fifty patterns no two alike.

In the dress goods world, the reign of the plaid is supreme-so in this collection plaids are plentiful, but iere is no tack of fancy weaves in plain colors, and the plain weaves so desirable for switings.

Crepons and Poplins, buy and two toned effects, rough and smooth finished goods-che stripes and dots-a careful selection of the best the East ern market had to offer, and, we doubt not, the highest class dress goods to be found in the territory.

Prices are from 85c to \$2.25 a yard-but without the goods before you price means little.

GOLF ... HATS

The First Showing of the New Smart Hats for Women

GALL THEM Golf Hats, Automobile Hats, or what you will. The important fact is they are exceedingly Stylish and popular.

Made of a Felt, with brim slightly turned up at back, and down in front, or not as you wish it; plain or fancy colored silk folded and tied at the side forms the band, through which is fastened a quill.

Briefly, this describes the hat, but no words can quite express the fetching, natty effect of the hat when it is fulfilling its mission-crowning fair woman.

In brown, gray, black, blue, and castor shades. Prices from \$1.25 to \$4.50.

They are going rapidly and in order to see the showing in its completeness you should come early. There are only one or two of some styles, so early choosing is
